

Title

Correction: Pacing And Energy Conservation Coaching and physical function in post-viral fatigue syndrome: a community-based assessment

Abstract

This notice corrects a nonclinical metadata error in an earlier report on pacing and energy conservation coaching for post-viral fatigue syndrome. The participant population, intervention, comparator, analyses, and clinical conclusions are unchanged. The corrected record clarifies the outcome definition and preserves the original study context for evidence review. The investigators reported uncertainty intervals rather than relying on a single summary estimate. The authors described uncertainty around maintenance of the observed pattern beyond follow-up. This report is from a parallel-group randomized controlled trial comparing Control: routine care vs Intervention: inhaled anti-inflammatory therapy + pharmacist medication review.
